Accelerating your RMR will lead to having more energy, adding more muscle, dropping unwanted fat, reduce injuries, improve your focus and concentration, etc. Does this book have a calendar I can follow? Yes, an easy to follow calendar is provided. Will this book provide me with recipes I can use and prepare on my own? Yes, simply and easy to prepare recipes are explained in detail so that you can get started right away. Eating complex carbohydrates, protein, and natural fats in the right amount and percentages as well as increasing your RMR will have many positive effects such as making you faster, stronger, recover quicker, develop muscle at an accelerated rate, and become more resistant.
