

Angels are People Too and Other Life Lessons

With the popularity of shows like *Crossing Over* with John Edwards, the idea of communicating with the dead is no longer just the terrain of spiritualists and con-artists. As more and more average Americans believe that there are multiple levels to life, as well as multiple lives to live, a fascination has arisen with the stories of those who are gifted with the ability to communicate with those who have passed. Any reader interested in this topic will be pleased to find *ANGELS ARE PEOPLE TOO AND OTHER LIFE LESSONS*. On the other hand, if Davis can, as she asserts, hear the dead when they are speaking, there could always be the possibility that her friend did, indeed, return to affirm her beliefs as correct. Davis' book is fascinating on another level as well. Her evangelism is of the type that is most palatable to the average reader. She comes off as warm, occasionally humorous, and caring, without being hurtful or condescending. Her prose is straightforward and honest, lending her work as a whole a sense of sincerity as illustrated in this quote: Every day I marvel that I have The Guys as my unseen friends. They have shown inexhaustible patience and have been an important part of my life for a very long time. I believe the Angels' sole purpose is to try to assist us. Since they want the very best for us, they will give as much help as we are willing to accept. As God's messengers, Angels are
