

Unfolding The Lotus: Spirit Reflections on Mediumship

Have you ever wanted to develop your awareness of the reality beyond the physical world? If so, this book can help you fulfill your wish. Communicating through trance mediumship, an evolved spirit guide, Hai, and other spirits, offer guidance on how we can all develop mediumship. A wide range of topics is discussed; guides, mechanisms of communication, dangers of prediction, difficulties of communication and the problem of contamination by the mediums mind. Guidance is given on how to approach the interpretation of spirit messages and, to enable the reader to facilitate development, a sample of meditations and a range of exercises are also provided. For those who are interested in Physical Mediumship, the experience of the mediums group in sitting for Physical Phenomena is another feature of this book. Those who have read the authors first book, *Spirits Speaking from the Heart*, will be familiar with the humour of the spirit communicators. Here again, that sense of fun is never far away, as they impart their insights and guidance. While not everyone can develop mediumship to an advanced level, the spirit communicators indicate, that most of us can develop a degree of awareness, of the loving energies that surround us.
