

Hughes: The Private Diaries, Memos and Letters; The Definitive Biography of the First American Billionaire

Howard Hughes was a true American original: legendary lover, record-setting aviator, award-winning film producer, talented inventor, ultimate eccentric, and, for much of his lifetime, the richest man in the United States. His desire for privacy was so fierce and his isolation so complete that even now, twenty-five years after his death, inaccurate stories continue to circulate, and many have been published as fact.
