

## Palaographie / Palaeography (German Edition)

Salomo A. Birnbaum (1891-1989) is the uncontested pioneer in two large closely related research areas, namely historical Jewish linguistics and the palaeography of Hebrew and all Jewish successor languages. This collection of essays provides a cross-section through Birnbaum's life's work. Volume I contains articles on Jewish philology and a survey of additional Jewish languages and individual studies. Volume II documents the development of Hebrew palaeography, which began to be established in the period between the 1930s and 1960s.
