

Encyclopedia of Animal World (Hardcover) (Chinese Edition)

This book consists of 8 chapters, which, from lower animals to the higher animals, introduces protozoa, porifera, coelenterate, annelid, mollusks, arthropods, fish, amphibians, reptiles, birds and mammals. The animals selected in this book are typical representatives at each evolutionary stage, and reading their characteristics, habits, anecdotes and other vivid introduction, one will feel as if he/she has walked into a zoological museum. This book will help children expand their horizons and enrich their knowledge, and make them truly feel the joy of traveling the animal world.
