

## Faith and Freedom

Teresa Forcades, Spanish Benedictine nun, theologian, physician and political activist, is one of Europe's leading radical thinkers. Marrying her Catholic faith with a passion for social justice, she came to prominence for her eloquent condemnation of the abuses of some of the world's biggest pharmaceutical companies. She has gone on to found a leading Catalan anti-capitalist independence movement and is one of the leading voices in the world today against the injustices of capitalism and the patriarchy of modern society and of her own church. In *Faith and Freedom*, her first book written in English, she skilfully weaves together her personal experiences with a reflection on morality, religion and politics to give a trenchant account of how the Christian faith can be a dynamic force for radical change. Placing herself in a powerful tradition of Catholic social doctrine and Liberation Theology, she applies her perspective to the issues most precious to her: freedom and love, social justice and political engagement, public health, feminism, faith and forgiveness. Structured around the five canonical hours that give its peculiar rhythm to the monastic day, this book is a thoughtful and bold polemic against the exploitation and injustice of the status quo. Its call for liberty, love and justice will resonate with anyone disaffected with a savage and destructive political and economic system that marginalises and murders the poor and undermines the very fabric of social life.
