

## Life and Wisdom of a Nonagenarian

Being 90 years old, I wrote my life-story with special emphasis on Germany's war against Russia. Unconsciously the most important future problem of the world took over: the final fight in the next decades between Islam and Christianity. It is the duty of all politicians and news-persons to inform the world; that the Clash of Islam versus Christianity is coming soon with the destruction of our civilization. And this can only be avoided by sufficient publicizing the truth, that all religions are phony, especially the paradises. Guy Lombardo was right with his New Year Eves song: enjoy yourself its later than you think. But only if humanity is smart enough and does not kill itself for a phony paradise, can it enjoy itself forever.
