

Light from the Angels

Angelic Technology Manifesting on Earth
The material in this book was originally published as a series of articles from Hallie Deerings Triple Your Healing Power column, which appeared regularly in the Sedona Journal of Emergence! from November of 1991 through April of 1995 [Editors Note: therefore, contact and purchasing information might be out of date]. The articles appear here almost verbatim, with only a few stylistic changes for the sake of continuity. There are some repetitions -- most notably the Angelic Master Meditation Technique -- that were left in for the readers convenience. The columns that comprise this book were written at the request of the Divine Mother and the Rose Angels, who chose the topics for each month, suggested ways to approach each subject, telepathically dictated some of the wording for the most difficult concepts, and left the rest up to the channel. Consequently the column is a combination of material from the Divine Mother and the Angels mixed with the comments and personal experiences of the channel, with occasional reference to classical metaphysical authors.
