

## Liberty in My Soul

And now, I realize that the Communists are not different from the czars of Russia or the kings of Prussia or Hitler or Stalin were. Besides killing millions, they all had one thing in common: enslaving those still living, enslaving their minds, and shackling their freedom. That way, they would lose their will to liberate themselves and seek the one thing that every man yearned for-freedom, Zsizi explained. (Think about this last paragraph. Sixty years had passed since Zsizi and I had this dialogue about dictators, their mind-altering tactics, and their hideous practices. I am seeing the same thing in various forms being repeated under the current administration again [2014]. The social welfare system pushed by the Left is ushering in the dissolution of democracy in the United States of America. The denial of the past is being rampantly pursued in public schools. The distribution of wealth is spread to those who are lazy to work to support themselves. These actions are nothing less than the surreptitious push by the Left toward Communistic socialism. Eventually, it will destroy your individual liberty. It will destroy your faith in God. Dont let it happen! There is no other place on earth where you can run to find your freedom. It was for this very reason I came to America, for at that time, In God We Trust was believed and practiced.)
