

The Light That Awakens: A Guidebook to Higher Consciousness

Consciously or unconsciously, we are all seeking fulfillment in life. The Light That Awakens reveals that the source of our seeking is not outside of us but within a boundless reservoir of wisdom, peace, power, light and bliss. That reservoir has been called consciousness. Speaking from direct experience of the highest spiritual attainment, Swami Amar Jyoti shows us that spirituality does not have to be austere or difficult. Aspirants from many paths and traditions will appreciate this gentle guide for finding the sublime in every moment.
