

The Baseball Bibliography, Vol. 1

Baseball, more than any other sport, inspires widespread research and publication. The literature of baseball is vast and continues to grow at a fantastic pace. This second edition of Myron Smith's acclaimed Baseball Bibliography contains some 57,000 entries, bringing the 1986 book up to date with the tremendous body of baseball literature published in the last 20 years. The resulting four-volume set is the largest and most comprehensive non-electronic, non-database, print bibliography on any major American sport.

Citations include books and monographs; scholarly papers; government documents; doctoral dissertations; masters theses; poetry and fiction; novels; pro team yearbooks; college and professional All-Star Game and World Series programs; commercially produced yearbooks; and periodical and journal articles, including the first-ever complete analysis of the major diamond-oriented contents of Baseball Magazine, Baseball Digest, Sport, Sports Illustrated, and ESPN: The Magazine, among others. Data include biographical references to 3,904 major league players, and an appendix offers a full list of the 1,712 journals, periodicals and magazines cited. The work is fully indexed by subject and name. The book is published as a set of four volumes. Replacement volumes can be obtained individually under ISBN 0-7864-2408-7 (for Volume 1), ISBN 0-7864-2409-5 (for Volume 2), ISBN 0-7864-2636-5 (for Volume 3) and ISBN 0-7864-2637-3 (for Volume 4).
