

# The Last Revolution: Visions of an Unknown Paradise and Criticisms of Religion and Capitalism (A History of Imperial Bullshit Book 1)

A radical and impassioned critique of civilization that exposes how our major religions are all psychopathic, suicidal, tools of the ruling classes. All your assumptions about civilization and progress will be challenged. The style is reminiscent of Nietzches even as it seamlessly incorporates a host of facts and quotations. But this isnt only a critique of the past and present--most of its nearly two hundred passages is concludes with detailed visions of the paradise that awaits its creation .
