

Crystal Companions

An innovative look at how the author and other practitioners are combining crystals, crystal skulls and various mineral specimens with modern-day metaphysical activities in order to enhance their performance. The impact crystalline energy has on therapies, spiritual pursuits and divination techniques is highlighted in this book, together with brief outlines on the histories of these various practices. Helpful exercises, recommendations and crystal know-how are also included for both the professional and the novice. This is a valuable handbook for anyone interested in the power and properties of the mineral kingdom.
