

## New Science Theory

There have not been a new science theory for many years. Presented here is a refreshing new look at what we know as fact presented in no math English. Not written for real the physicist but written for the real curious. Originally written to help young and old think outside the box. So many times we are taught self limiting constraints. So blinded by our beliefs, we refuse to listen to anothers ideas. These are my ideas. My intent is to refresh our thinking process to stimulate fresh ideas.
