

Instant Karma 9 Quick Indian and Chinese methods for prediction 3rd Edition (Instant Karma Predictions Book 1)

Yes this is the book that predicted Obamas Victory in the presidential elections. This is a book on 9 Quick Indian and Chinese methods for prediction techniques. The author has given very simple and quick techniques that can be used in everyday life by anyone to predict in their daily lives. When people live their lives in day to day activities if there is a mention of occult science their eyes do seem to lighten up, however it is all put under covers and forgotten. Not that they do not understand the principles, but they do not want to look at the other side and acknowledge that there is something else that governs our activities. We would like to live in our own small cocoon which is built around what modern science explains and does not explain. This is the 2nd Edition of the book.
