

The Children of Now...Evolution: How We Can Support the Fast-Forward Evolution of Our Children and All of Humanity

In this follow up to her best-selling book *The Children of Now*, Meg Losey revisits the Indigo children and discuss who they are becoming and their growing influence changing society for the better. Specifically, this audiobook addresses the following: Who are the Crystalline Children, Indigos, and Star Kids? What are their traits? Where do they come from and why are they here? Are we living in a time of accelerated evolution of human consciousness? Losey offers concrete information parents need to have and provides direction for what schools, families, and societies can do to help all the different types of the Children of Now function and flourish. Too often these children as mislabeled as ADD or ADHD or worse. She also addresses the metaphysical realities that these children (and others) perceive. There may not be monsters in the closet or under the bed, but these highly-evolved children may actually be seeing things that their parents cannot. Finally, she paints a picture of what our world will look like when the Children of Now take over. With new research and reports from the field, *Children of Now Evolution* is even more important to the families of today and tomorrow.
