

Conversations with History: Inspiration, Reflections, and Advice from History-Makers and Celebrities on the Other Side

We followed the ups and downs of their lives in the media. We know about their mistakes, their struggles, and their joys. But have you ever wondered how celebrities and public figures would reflect on their lives since they passed? In an unprecedented reading experience, *Conversations with History* sheds some light. Channeled by a psychic medium and written in interview format, this book takes readers on a unique journey with 22 spirits who were famous (or infamous) during their time on earth. Renowned personalities from 600 b.c. to 2011 a.d. from Charlemagne, Ben Franklin, and Gandhi to Walt Disney, Kurt Vonnegut, and Steve Jobs have returned to share their most important messages with us. Their passing led them to understand their life lessons and the ramifications of their choices. And now, with the clear-eyed vision gained only from the Other Side, they're taking center stage one last time to offer us insights into their lives that they didn't possess while they were here. These famous spirits open up to share the lessons they've learned since their passing in order to help us live our lives better—lessons in abundance and prosperity, love and relationships, creativity and art, personal responsibility for the world around us, and the legacy we will leave for future generations. In every interview, there are simple but powerful lessons that readers can use to improve their lives every day.
