

# SINGULARITY - THE GATE WAY TO GOLDEN AGE AND COMING OF TRUTH

Singularity is real. By virtue of second law of thermodynamics it is inevitable. In the absence of Truth it creates fear. In thermodynamics it emerged as Heat Death of the universe. In General Relativity it emerged as the point to which all the matter collapses in time to take new birth [Big bang]. In modern world, it is the Black Hole into which all the information collapses. From the point of biology and evolutionist, it becomes the point where machines grow to beat the potentiality of Human mind and makes him slave. All this potentially fearful thinking emerges, from our basic vision and assumption that universe is material. These fears vanish and hope emerges the moment you switch your fundamental assumption that universe is material and think it as living conscious and intelligent being. Then all the conceptual thinking of singularity becomes valid as a Living Science, centered on one Super Soul and Mind that Creates and controls everything. We discover a new field called Consciousness that supports the Universe, with anti-gravitational property. Our present evolution of the universe becomes a journey of the Creator in time to awaken human consciousness and intelligence to meet the Mind of God or the Creator, such that we humans beat death and gain life. We are approaching the Gate of Singularity and Truth is the Key to open the door to enter the Golden Age or Kingdom of God. We are in the edge of death and destruction, the more we delay comprehending the Truth greater will be the destruction. Universe needs to be understood as Consciousness and intelligence [Information] unfolding and enfolding eternally sustaining the universe in time.
