

## Creative Music Production: Joe Meeks Bold Techniques

Legendary British producer and technical innovator Meek--the man behind the hits Telstar and Have I the Right?--has become a cult figure since his death in 1967, with fan clubs, CD collections, and retrospectives growing in popularity every day. Although much attention has been paid to his unusual life story and tragic passing, Creative Music Production: Joe Meeks Bold Techniques is the first book that gives the details on the methods that led to Meeks influential hits. Also included is a CD containing Meeks I Hear a New World album, not available in its original form since 1960! Written by veteran music journalist Barry Cleveland, this book takes an industry perspective on Meeks life. It explores his 12-year professional career in great depth, with special attention paid to the equipment he used and the effect that his work had on the people around him.
