

The Baby Mind Reader: Amazing Psychic Stories from the Man Who Can Read Babies Minds

Psychic Derek Ogilvie is the baby mind reader -- called in when parents have tried all else, Derek communicates with children to find the reasons behind their problem behaviour, tantrums and sleepless nights. This gripping memoir of his psychic adventures accompanies the Five TV series -- a fascinating cross between Supernanny and Most Haunted. Derek Ogilvie is one of Scotlands best-known and respected psychics. He can be seen on Five TV in 2006 with his new show The Baby Mind Reader, where he exhibits his rare ability of being able to communicate telepathically with babies and young children. In this, his fascinating first book published alongside his TV series, Derek shares the story of his rollercoaster life and how he rediscovered his psychic powers and his true calling in life. At the age of nine Derek realised he was psychic when his dead neighbour started visiting him every night while he was in bed. But as a young man, Dereks psychic abilities took a back seat as he concentrated on building a business empire and becoming a millionaire. However, five years ago, Dereks business went bust, his house was repossessed, his partner left him and his grandmother died. Only then did Derek take stock of his life and reconnect with his psychic gift to start helping other people. It was at this point that Derek realised he could also communicate with babies and young children, as well as animals. Funny and poignant, this is Dereks amazing story.
