

Universal Voice

We all know the seriousness of the challenges faced by our human family, and our world. But we are also in a powerful position to improve our situation. Here's what I see. Humankind is divided against itself by race, religion, nationality, and gender. Many people of good will around the world are anxious to be part of the solution, but don't know quite where the solutions may lie, and do not have a way for their voices to be heard. Certainly the world is in an unstable state and it can't be sustained! The purpose of this book is to contribute to the zeitgeist through universal voice of wisdom about the nature of human beings, root cause of all the ills in the world, and the healing remedies; This book is to be like a lens and gather the millions of people from around the world to cure the blight on our personal, local, and global peace and unity.
