

Under The Burnt Leaves

Scott Faithfull returns with his latest collection of poetry and follow up to My Dearest Ghost. He continues to write in what he calls his off the wall style of poetry. Once again he touches on the subjects of love and hate as well as relationships and life. He writes his material based on what he not only feels but also on what he feels through other people with what they are going through. He also writes on what he sees and hears in life and in the world.
