

Donald Trump And Ben Carson Are Right: About Islam And America

OVERVIEW: This book focuses on Americas history from her original discovery in the New World, through her colonial and Revolutionary War Era leading to invention of the worlds first constitution. The truth is extensively footnoted about her solidly Christian heritage that extended for centuries through her best days of the Route 66 Era. Then the undoing of our nations fabric is detailed beginning with court cases in the 1960s that, in effect, legally threw God out of America. THE NEED FOR THIS BOOK came about after the mainstream media created a furor during the 2016 Presidential Campaign when asking Donald Trump and Dr. Ben Carson gotcha questions about their views on whether our presidents faith should matter, especially if he happened to be Muslim, and whether Islam is at war with the West. As an experienced trial attorney, often representing the underdog, the author felt bound to come to the defense of these two candidates hence, this book. **AUDIENCE:** It is geared toward anyone desiring to gain detailed knowledge and insights into the religion of Islam from its invention through today, its tenets, and whether the Koran is compatible with the Bible-based U.S. Constitution, freedom, and democracy. Is it truly a religion of peace as recent presidents claim? **READERS OF THIS BOOK** will become so educated on these issues as to become local experts on American and Islamic history as they pertain to its title: Donald Trump and Ben Carson Are Right About Islam And America.
