

Drab Lil, A Gypsies Medicine Book

In a small row home, in 1956 South Philly, down in a dirt floor cellar, a drabarni grandmother picks up pieces of wood chips discarded on her husbands worktable. Using a carpenters pencil she sketches a circle with spokes and hands it to her eight-year-old granddaughter. Ashok Chakra, Wheel of Origin, she says. This is the first step on your path. One day there will be twenty-two of them... This book is one Romanis (Gypsy) grimoire, a family compendium about moving along our path in life with a minimum amount of stress. It is not meant to be a guide but it is a slice of life that I hope you will learn from and enjoy. Drab, in Romanes, means herb and fortune telling. A drabarni is one who can heal with herbs and advise by using cards, tea leaves, dreams and the lines on the palm of the hand. Lets change the word fortune telling because no future is engraved into gold and our past will determine our actions for the future. It is more a holistic way of looking at anothers life and prescribingthrough the use of herbs and advicehow to cope. When I was about eight, my grandmother drew symbols on small pieces of wood that I have reproduced. She gave me the first five and instructed me to observe life as I grew older and add my own. They could be altered but she hoped I would not commit them to paper (or wood) until I was sure. Although Ive been enamored of the tarot most of my life, I discovered that in my mid fifties, the markers and pens found their way to the blank cards I bought and my Drom Ek Romani (the way or path of one Gypsy) was completed, all 22 of them.

The main philosophy of my medicine book is written in 22 chapters, each one with the title of the 22 cards, or disks of the Drom Ek Romani. I have tried to show how life often follows each little path as we spiral through it. Also included is information about o jakhalo (the evil eye) and some basic curatives made mainly

from kitchen herbs. However, this is not a how-to book. We Gypsies traveled, did not have a homeland, and were unable or unwilling to put down roots. So everything was kept simple. I still make dinners where I put the pot of goulash or soup on the table with bowls and spoons and tell all to help themselves, including going into my refrigerator for anything needed. This is my metaphor for not spoon-feeding you. With internet sources and overloads of information, it is almost like I am saying, Help yourself. Heres the pot of soup, you do the rest. My sustenance is your sustenance and Im here to start you on your own personal path...
