

VIII Workshop of the Gravitation and Mathematical Physics Division of the Mexican Physical Society (AIP Conference Proceedings)

This proceedings would be of interest to researchers and students interested in a combination of introductory lectures with state of the art research in gravitational physics including cosmology, dualities and non-commutative geometry. The VIII Workshop of the Gravitation and Mathematical Physics Division of the Mexican Physical Society has been devoted to present state of the art research on gravitational physics ranging from Cosmology to Non-commutative gravity and Loop Quantum Gravity to a wide audience including students and researchers.
