

Economic Analysis for Business and Strategic Decisions

How can business decisions be made and tackled using economic theory, decision science methodology and computer modelling? Economic Analysis for Business and Strategic Decisions explains in a clear and layman-like format how you can apply these cutting-edge economic and financial concepts and tools to solving your real-life business problems. You will learn how to use this high-level economic thinking in making business and strategic decisions such as pricing strategies, yet still employing your regular computer software.
