

## The Shipbreakers

US College students Amanda and Peter Dunbar are enjoying a sightseeing holiday in South East Asia when they are brutally attacked by terrorists. Kidnapped, they are taken to a remote island where the inhabitants pursue a strange way of life and the Dunbars have to fend for themselves. When the kidnappers extortion attempt fails, the family group falls into grave danger and they must escape if they are to survive. But how? The challenges are huge and the obstacles enormous and the Dunbars must devise the boldest of plans and embark on an adventure that seems truly impossible. Time and again, they doubt whether they can succeed. Attempts end in disappointment and ideas prove futile; surely their plans are beyond their capabilities. But, if they are to avoid certain death, they have no choice. They must take those first steps into the unknown.
