

The New Kings

MARITIME LAW AND THE BANKERS:
The Jones Act Quote There are two kinds of law on the earth, one is called Civil Law which is the law of the land and one is Maritime Admiralty which is called the law of water. Maritime Admiralty is Banking Law and the law of the Maritime Admiralty says that you, because you came out of your mothers water are a maritime Admiralty product, this is why the ship is sitting in its birth and is tied to the dock and the captain has to give a certificate of manifest to the port authorities. Because money is changing hands this is why when you were born you have to have a birth certificate. It has to be signed by the doctor because thats where the ship is tied to, so the doctor signs your birth certificate. Because , you came down her birth canal you are a maritime Admiralty product. Therefore your birth certificate is signed by your mother and where your mother signed on the birth certificate you will see it does not say parent or mother, it says informant. Your mother was informing the bank that she has just produced another product to be bought and sold.
