

The Very Reverend J. C. Faye: His Life and Times: A Biography

The decolonization process in The Gambia threw up political leaders who in various ways contributed to the emancipation of the country. Regrettably, very limited efforts have been made to put on record the experiences of these personalities, not only as part of a process of knowledge generation and transfer but as a source of inspiration for those aspiring to leadership.

This volume is a step in that direction. It chronicles the life of The Very Reverend J.C. Faye, a man of many parts and an icon. Like other distinguished leaders of his day Faye's leadership instincts could not be contained in a single sphere of activity; they were a license to venture into different areas and to squarely confront the challenges therein. As the activist Faye could not be separated from his times, the narrative leads to a comprehensive examination of his involvement in the fields of education, the Church, and in the political system. We thus have a thorough discussion of political and constitutional development in The Gambia in the late decolonization and early post-independence period. Full treatment is also given to the linkages and overlaps in his engagement in these three fields of operation, resulting in a rich tapestry of commitment to service to his people and to his country. One observation that stands out in the description and analysis of the politics of the day is that from early days Faye was a strident opponent of the colonial system. In the pursuit of the goal of self-government and independence for The Gambia, he was ready to take on all perceived perpetrators of colonialism. This struggle, revolving around sustained demands for constitutional advancement, occupied much of his attention and energies. But then in the larger society new forces were to emerge to challenge pioneers like him, leading to his formation of alliances with contending forces. And, as happens in politics, a series of miscalculations eventually led to the end of

an outstanding political career.
