

Goal Setting: Reach Goals Fast: The Ultimate Guide To Goal Setting - The Most Effective Way To Reach Goals Fast (Goal Setting, Motivation, Action Plan, ... Goals, Success, Self-Discipline, Organized)

Use This Powerful Step-By-Step Goal Setting Method to Set Your Goals And Achieve Them Successfully! Many of us feel aimlessly adrift. We work hard every day but never seem to achieve anything worthwhile. Part of the reason most of us feel this is because we fail to take time to evaluate what we truly want from life, and because we do not consider our true desires, we never set goals aimed at achieving those desires. If you fail to outline what you want out of life and fail to map out your destination, you will aimlessly skirt around from one place onto the next place like a hobo without a will. Therefore you **MUST** map out your life as much as you can. The best way to do this, and actualize your desires is to set Goals. Successful business people, top-level athletes, and all high-achievers set goals. Although most of us know the power of setting goals, very few of us actually take the time to write down our goals. Research shows that people who write down their goals have over an 80% higher success rate of achieving them. Goal setting is the process of intensely thinking of your ideal future and creating an actionable plan that materializes that future. Goal setting motivates you to turn your vision into reality. It helps you determine what you want from life, as well as where to concentrate your efforts as you go about achieving your dreams and the life you desire. Therefore, goal setting helps you gain focus, and know your strengths and weaknesses. When you set goals in the right way, you quickly spot any distractions that may derail the achievement of your goal, which allows you a chance to take precautionary measures against distractions. First, it's crucially important that you understand **WHY** you need to set goals before you learn **HOW** to set them effectively. Susie Van Bergen highlights six essential reasons in this book, which explains the value of

active goal setting.
