

Gay Marriage: Why Conservative Christians Need To Support It

Would Jesus support banning gay marriage? Does the Bible support such laws? These are the questions raised in this short book. It discusses: * Whether or not scripture supports banning gay marriage (even though it teaches traditional marriage)... * How banning gay marriage may be an abuse of republican power... * And whether or not it is in the Church's best interests to defend traditional marriage on the State level... Ultimately, the author concludes that even though the Bible teaches traditional marriage, it does not support a governmental ban on gay marriage. Though contrary to many teachings in the Church, Sean Edwards makes a compelling argument for why conservative Christians should support the legalization of gay marriage. It is a must read for all Christians everywhere.
