

# Gravitation, Astrophysics, and Cosmology: Proceedings of the Twelfth Asia-Pacific International Conference: Twelfth Asia-Pacific International Conference on Gravitation, Astrophysics, and Cosmology

The ICGAC-12 aimed to serve as a common platform around the Asia-Pacific region for the exchange and communication among all researchers in the fields of gravitation, astrophysics and cosmology. The scope covered in the conference includes dark matter, dark energy, experimental study of gravity, black holes, quantum Yang-Mills gravity, GR extension, variation of constants, fundamental physics space projects, relativistic astrophysics, white dwarfs, neutron stars, and gamma ray bursts.
