

Every Day of the Civil War: A Chronological Encyclopedia

From the early seizure of government property during the latter part of 1860 to the final Confederate surrender in 1865, this book provides a day-to-day account of the U.S. Civil War. Although the book provides a daily chronicle of the combat, it is written in narrative form to give readers some continuity as they move from skirmish to skirmish. During the course of the saga, the book also chronicles the life spans of more than 600 Union and Confederate vessels, documenting when possible the time of each vessels acquisition, commissioning, major engagements, and decommissioning. Seven appendices provide lists of prominent Union and Confederate officers, primary naval actions, and Medal of Honor recipients from 1863 to 1865.
