

Caught in a Moment

Whilst all the world stands still, Alex Trueman wanders alone in the silent streets of the city. All around are the motionless figures of his fellow citizens, caught in a moment, solid as marble. Hes a Daydreamer, states his school report and no one who knows Alex would disagree. But this mental state, this condition of temporary disassociation from reality is one that Alex has immersed himself in once too many times. He has daydreamed himself unwittingly into the strange world of Intersticia, a world outside of ordinary time that exists in the slender intervals between instants. At first it seems that he alone is free to wander these hushed streets with their motionless cars and people. But he is not alone. Alex soon discovers that he shares this world with others and that he has a rare power with the potential to change future, past and present.
