

How Not To Speak Australian

An oath will grant you a citizenship but to become an Australian in the true sense, you have to imbibe the values, the beliefs and more importantly the culture of the nation. When you stand for everything, you stand for nothing at all. Multiculturalism as the word denotes is a perfect example of such a case. Time and again, multiculturalism gets precedence over the Australian culture when the government and some media try to appease people from different backgrounds and communities through various sponsored programs.
