

Impressions - The Mind X Change

Arkens will be returning to Earth after six thousand years of forced exile to Mars. Many ships are being built, but only one is fully operational as of yet. The first ship, the crown jewel of arken technology is the Harvester. Her mission is to collect samples from Earth and retrieve ancient Earth artifacts. Arwenn, an arkrelle who lives on the Harvester, receives a cryptic message from a human girl named Halley who lives in the distant past on Earth. Minutes after hearing the message, Arwenn is captured by those who have infiltrated the Harvester with ominous plans set in motion months ago. The young arkrelle with Arwenn's outward appearance who wakes up in the hospital on the Harvester is not Arwenn, but Halley the girl from the message. What happened to Arwenn? Will Halley ever be herself again? Who are these infiltrators and what is their objective? Can their plans be thwarted or is it too late? arkens: a genetically modified humanoid species that purposefully induced their own sympatric speciation to better their chances of survival on Mars. arkrelle: a female of the arken species.
