

Flies and Lies: Life through fly-fishing

After spending twenty-three years in the high-pressure world of real estate sales, Don Oliver was a prime candidate for a midlife crisis. However, instead of buying a fancy motorcycle and getting a trophy girlfriend, Oliver chose to take the high road and pursue a new career. So Oliver moved his family to the mountains of Colorado and became a fly-fishing guide. Witty and wise, *Flies and Ties* takes you on one mans unforgettable journey from the corporate rat race to a challenging new career -- and a new outlook on life.
