

Coded Shadows: Code Your Book of Shadows With A Pagan Alphabet. Includes Charts, Pagan Alphabets & Coded Spells

Code your Book of Shadows with a Pagan alphabet. Today, many in the Wicca and Pagan communities are reviving the tradition of the coded alphabet. They are doing this for many of the same reasons their pagan ancestors did-to protect magical knowledge from misuse by those who have not been properly trained. Many are rediscovering ancient runes and sigils and even creating their own symbols. This book will be an asset in creating your own coded alphabet. Included are instructions, charts and coded spells. The spells are first presented in English and then coded into the Pagan alphabets which include Elder Futhark, the Shadow alphabet, and a numeric alphabet. Bonus blank charts are included in the back of the book for creating your own unique alphabet.
