

The Complete Guide to Manifesting with Crystals

Providing real-life examples on how to live in a fruitful partnership with crystal energy, this how-to guide fully explains the power of crystals and how they can be utilized. Crystals magnify the highest energy within, and both the newly spiritually aware and the seasoned crystal worker can gain insight and focus into their lives when combining this energy with the suggested positive affirmations to elicit forces of attraction and confidence. The book also taps into ancient and medieval cosmology to explain how crystals interact with the four elemental substances thought to constitute the physical universe: earth, fire, water, and air. By applying the wealth of information and experiences the manual has to offer, anything that can be visualized can also be fulfilled, whether extending the journey of the soul or wishing to improving surrounding circumstances, such as relationships, health, well-being, and career.
