The resonant circular array of electrically short elements: *Journal of Applied Physics Letters* > Volume 96, Issue 24 > 10.1063/1.3453758. Previous article Next article. Published Online: June 2010. Accepted: May 2010

Integrated diffractive terahertz elements: *Applied Physics Letters*: Vol Jun 8, 2016 Administration of International Union of Pure & Applied Physics undertaken The four newly discovered elements now have proposed names: **A**

controllable nanomechanical memory element: *Applied Physics* Buy The Elements of Applied Physics on ? FREE SHIPPING on qualified orders. **Micromagnetics of submicron (110) Fe elements:** *Applied Physics* **Dynamic**

separation of nanomagnet sublattices by orientation of Hall elements were fabricated based on high quality chemical vapor deposition grown graphene, and their performance limit was explored. The as-fabricated **Millimicrosecond**

Switching Properties of Ferrite Computer Elements *Journal of Applied Physics* > Volume 91, Issue 10 >

10.1063/1.1452265 The 1 μm wide elements switched abruptly from the up polarized domain to the **Department of**

Applied Physics - Stanford University Department of Home > *Applied Physics Letters* > Volume 15, Issue 11 >

10.1063/1.1652866. Previous The frequency selective element is either a grating of 75 lines/mm or **BISTABLE**

OPTICAL ELEMENT AND ITS APPLICATIONS: *Applied* *Journal of Applied Physics* 52, 5553 (1981) doi:

<http://10.1063/> Posttransition elements with limited coupling between s and p or d subshells tend to **Soliton**

propagation in micron-sized magnetic ratchet elements Home > *Applied Physics Letters* > Volume 87, Issue 8 >

10.1063/1.2012526 ferromagnets: The magnetic analogs of semiconductor junction elements. **Chen - Elements of**

Human Voice *Applied Physics and Applied Math* Femtosecond laser machining with high-energy pulses is used for

fabrication of diffractive elements in LiNbO₃ crystalline samples. This permits terahertz **Thermal relaxation in soft**

magnetic patterned elements: Journal of Home > Journal of Applied Physics > Volume 27, Issue 5 > 10.1063/1.1722419 Sb, and Bi) elements in silicon has been measured in the temperature range **Magnetization-graded ferromagnets: The magnetic analogs of** K. J. Kirk Department of Physics and Astronomy and Department of Electronics and Electrical Engineering, University of Glasgow, Glasgow, G12 8QQ, Scotland **Size effects in submicron exchange bias square - AIP Publishing** The publisher of the Journal of Applied Physics can be contacted at: American We study a series array of nonlinear electrical circuit elements that possess **Work Functions of the Elements: Journal of Applied Physics: Vol 21** Home > Applied Physics Letters > Volume 104, Issue 23 > 10.1063/1.4882640 soliton propagation fields are investigated as a function of the element size. **Applied Physics and Applied Math: Welcome** Important elements of both the applied physics and applied mathematics programs are junior-senior research seminars and opportunities to pursue **The elements of applied physics, : Alpheus W Smith:** Buy Elements of applied physics on ? FREE SHIPPING on qualified orders. **none** We report the realization of a completely controllable high-speed nanomechanical memory element fabricated from single-crystal silicon wafers. This element **Diffusion of Donor and Acceptor Elements in Silicon: Journal of** Journal of Applied Physics 68, 431 (1990) doi: <http://10.1063/1.346839> circular arrays with N=60, 72, and 90 elements are investigated theoretically **Switching of nanoscale magnetic elements: Applied Physics Letters** Like the chemical properties of the elements, the work function ? is a periodic function of atomic number, as shown clearly by a new compilation of published **Gradient index metamaterial based on slot elements: Applied** Home > Journal of Applied Physics > Volume 30, Issue 4 > 10.1063/1.2185963 The plot of inverse of switching time versus applied fields displays three **The resonant circular array of electrically short elements - DOIs** Journal of Applied Physics 29, 1264 (1958) doi: <http://10.1063/1.1723420> Interactions between Oxygen and Acceptor Elements in Silicon.29 (8), **Ultra-sensitive graphene Hall elements: Applied Physics Letters: Vol** Applied Physics is a graduate department in the School of Humanities and Sciences. It is one of three elements Applied Physics, Physics, and the SLAC **Melting point relations for posttransition elements: Journal of Applied** Home > Applied Physics Letters > Volume 94, Issue 26 > 10.1063/1.3170233 Abstract. The behavior of submicron exchange bias square elements has been Home > Applied Physics Letters > Volume 94, Issue 26 > 10.1063/1.3170233 Abstract.
