

Black Moon: Full Moon II

Georgiana Smith is on the run. Hunted for being one of the Five, she must face the consequences of what happened before she left school, as her father needs answers, her mother has to cope with the truth, Sky seeks revenge, and Henry tries to figure out where they stand. Taking a leap of faith, they search for the missing Five, hoping that if they're together, they'll have some leverage against the Council and will be strong enough to find out what's going on, and who's running the show. Georgiana fights against her growing feelings for Ryan as she does her best to have with Henry what was once there, and danger looms as everyone does their best not only stay alive, but also fight for their freedoms.

Excerpt Prologue Two more months. When would we be free? And what would it mean to be free? 1 It had taken six hours, three pit stops and a few reaching out for favors until Jane Smith pulled the car to a stop in front of a small cabin in northwest Raton, New Mexico. The one-story house had wooden walls and a red gabled roof, it had a small kitchen that also worked as dining-room, and the whole area, which had no walls dividing it from the simple living-room, was plainly furnished. A small hallway led to two bedrooms, one that had two bunk beds where Sky and Ryan slept, and another with a queen sized bed where Jane and Georgiana did the same. The cabin, which was to the far northwest, offered quick escape in case they were ambushed, as they could either change and run into the wild, or jump into the car and two minutes later be on one of three highways. You should see your father, Georgie, or at least call him, Jane told her daughter in a kind manner after the latter had returned to the small house following a short trek, while Ryan took a shower and Sky tried to find more information on Christopher Cross on her laptop. So far, little to nothing had been found, and they'd been surprised to

learn he was still listed as the schools principal and that no changes had been made. I guess, Georgiana mumbled, but she was still reluctant. She tied her hazel hair into a short ponytail. Hes lost Ingrid, even if she was crazy. And the matters still stand as they did months ago, since I turned and found out I was one of the FiveIm still a danger for him and for Mickey. Yes, hes lost Ingrid, Jane tensed at the mere mention of her name, as shed finally accepted the deceased were for what shed been, and now she flared with hatred whenever she thought of everything shed lost because of her. Everything that Ingrid had taken from her. But Im positive Matthew still needs you. You are his daughter, Georgie, hell be glad to know youre safe. Who knows what hes been told? I suppose, Georgiana bit her full bottom lip and shrugged. I guess itll be safest if I text him, she said as she reached for her cell phone. The first one shed own had been taken from her the night shed discovered that Margo was just an aloof victim in her husbands plan. Shed since bought a new pre-paid phone. Jane glanced at her daughter, who was her own spitting image, and still marveled at having her back. They had the same hair, although Janes was shorter, and they were the same height at five feet five, although Georgianas face was still heart shaped and looked much more youthful than Janes, which was a bit sharper due to the effect stress had had on her eating habits. Plus, Jane noted with joy, Georgianas eyes were a clear indicator of who her father was: they were dark green, almost black, with yellow specks surrounding the irises. Eyes that had enchanted Jane almost two decades ago and that had meant some of the best and worst moments of her life.
