

## Nostradamus: The Complete Prophecies for the Future

Revised and Updated Edition of This Internationally Bestselling Collection of Nostradamus Most Startling Prophecies 500 years ago, Nostradamus predicted some of the most shocking moments of modern time - the assassination of Benazir Bhutto, the 2008 financial meltdown, the floods in New Orleans, the Iraq war, the attack on the World Trade Centre, and the devastating Boxing Day tsunami of 2004 which claimed the lives of over 300,000 people. And his predictions foretold the future for decades to come. Mario Reading's unique decryption of Nostradamus's index dating system has enabled him to present all Nostradamus's prophecies in an entirely new light. Offering more than 120 prophecies for events yet to occur, plus brand-new commentaries on those that have come to pass since first publication, the author's groundbreaking translations and perceptive interpretations of the quatrains reveal extraordinarily accurate and sometimes shocking predictions for our future: these predictions include the demise of the British Monarchy, the break-up of the European Union and Global War. The greatest diviner and scryer who ever lived, Nostradamus was born in 1503 in Provence, France, and his prophecies have been continuously in print since his death on 2nd July 1566.
