

Notions and Potions: A Safe, Practical Guide to Creating Magic and Miracles

This work reveals how casting spells and conducting rituals can help access and activate a natural source of power available to everyone. The tools of the trade - candles and incense, the grimoire, the besom, the athame or magical knife and the all-important wand - can be used in order to gain more control in life. The book shows readers how they can use the magic and healing properties of herbs, trees, crystals, colours, numbers and astrological energies to enhance and empower their work. It also describes how magic can bring love, protect readers from harm, help with healing, guard home and family and boost the bank balance.
