

Numerology and Signs

Your date of birth in a particular Sun Sign plays an important role to mould your personality. Numerology and Sun Signs contains all the necessary information on general astrological knowledge pertaining to the influence of Numbers on your sign. Numerology is a very important part of astrology and it helps people, if applied accurately. It is the study of numbers, and the occult manner in which they reflect certain aptitudes and character tendencies, as an integral part of the cosmic plan. It is most advantageous when the person does not have a birth horoscope. The author, P. Khurrana, has given detailed information about career, health, marriage and various aspects of life with a special focus on Numbers. The contents are quite thought provoking and his language is simple and lucid while his style and expression is quite powerful and scholarly. The subject of astrology in combination with Numerology has been dealt with in an engaging manner. Students of astrology can use it as a text book.
