

One Dollar Meals - Recipe Book Five: Save Money and Learn How to Eat for About a Dollar

This series of books, One Dollar Meals, makes it easy for the budget conscious cook to control the cost of preparing meals in their kitchen without having to do a lot of price comparisons and without having to think too hard about what to serve for breakfast, lunch, or dinner. Now, all you have to do is grab one of my recipe books and find a meal you are in the mood for, prepare it and enjoy a tasty, nutritious meal at a VERY low cost. And you dont have to think about the ingredients or their cost all my recipes come with an ingredient list, method of preparation, and my calculated cost for that dish (based on notes and many multiple visits to several local food stores). Of course, food costs can vary wildly, depending upon where you live, what you buy, the size of your portions, and where you shop. Capping meal costs at a dollar proved to be difficult so I stretched things a bit so the limit on the cost of any meal in these books is \$1.50, which is pretty close to a dollar and still pretty cheap. Many of the meals cost much less than a dollar and are pretty darn good. Between the lower priced meals and the higher priced meals, all my recipes average out to about to about a dollar. Some of the recipes require a little extra effort, like making your own yogurt from milk at home, but they are worth the effort, especially if you are living on a tight budget or you are trying to save up some money. For example, you can make your own plain yogurt for less than 50¢ whereas at the grocery store the rock bottom price for plain yogurt is \$1 where I live, and most cost more than that. Every recipe book will include the one dollar food pantry. It is pretty comprehensive but of course by all means not totally inclusive, and you can use it as a reference while you are cooking your inexpensive meals. Most of the recipes are for one meal while I also include some for two or more meals. Because of their high costs, it is difficult to include many food items like meats,

seafood, nuts, cheeses, and fresh produce (surprisingly expensive sometimes) into this One Dollar Meals series, so I will be writing a second series called Two Dollar Meals, which will include meals that cost between \$1.50 and \$3.00. I will probably finish with a third more indulgent series, Three Dollar Meals, with meals priced between \$3.00 and \$4.50. The third book sounds a lot more expensive than the first book but a great home-cooked meal for \$4.50 is still pretty cheap! Especially compared to eating out, even at McDonalds. A Big Mac Meal costs \$6.00, which probably includes Fries and a soda, and it is all junk food. There is no junk food in my books and my mission is not only to save you money in the kitchen, but to provide you with recipe options that are healthy and made from unprocessed food. All my books will include ten recipes apiece to keep them simple and easy to read. There is a healthy variety of meat or seafood recipes, vegetarian recipes, and vegan recipes, and many of the vegetarian and vegan meals are adaptable enough to easily add meat or seafood, although that could easily push your meal budget over the \$1.50 limit. I hope you will try some of my recipes and see for yourself how inexpensive, tasty, and simple they are.
