

Operation Terra, Volume Two

The Hosts of Heaven were the only inspired source to accurately predict the events of 9/11 ahead of time. This volume completes their present counsel with regard to our preparation for the journey to Terra. In it, they tell us what to expect and how to cope with the changes that are already occurring and those that lie just ahead. Thousands of people all over the world are finding hope, peace and comfort from this material, and it is truly saving lives. Clear, lucid, and scientifically valid, this material stands alone in its wisdom, compassion, and ability to make accurate predictions that do, in fact, come to pass. Unique in the field of channeled babble that is so widespread these days, Operation Terra is the clarion voice of home to those who are destined for the journey to Terra, the New Earth.
