

Days of Chaos: An End Times Handbook

There are two ways of looking at the events happening in the world around us. The first is that all of these events are just natural phenomena. With this in mind one would look at Israel coming into her ancient homeland after almost 2,000 years of diaspora and would not see any relevance, nor would it matter. To put it bluntly, in this way of thinking one would embrace the world view that there is no god, no prophecy, and no supernatural world. There is only what we can see, hear, taste, smell and observe using the scientific method. Then there is the other world view that embraces The Holy Bible or The Guidebook to the Supernatural that takes the opposite stance on all of these positions. There is a God and He is good. There is a supernatural world and it is manifesting. There are signs that those who have eyes to see and ears to hear can point to and say that His coming the Second Coming of Jesus is soon. There is going to be a profound change in human history, and it begins upon His return. The skeptic asks, where is the promise of His coming for all things continue as before? In my way of thinking based on my worldview, we are seeing the birth pains that Jesus warned us would appear before His return. It would seem that prophetic events are accelerating, as I believe we are seeing the signs that warn us of what is coming on the earth... These are the Days of Chaos.
