

## Almost Human (The Wave Volume 7)

In this latest volume of her prescient Wave series, Laura Knight-Jadczyk brings order to the chaotic and labyrinthine world of murder, conspiracy, and the paranormal. In a unique and probing synthesis of science and mysticism she presents a detailed series of case studies and application of her hypothesis of hyperdimensional influence. From interpersonal relationships and their expression of archetypal dramas to the vectoring of human behaviour to achieve hyperdimensional purposes, *Almost Human* reveals the mechanics of evil, how it creeps into our lives, and what we need to be aware of in order to avoid it. The case studies of John Nash, the schizoid creator of Game Theory, and Ira Einhorn, the New Age psychopath who murdered his girlfriend, are the window through which Knight-Jadczyk unravels the intricate web of deception, aims, and counter-aims of the Powers That Be. *Almost Human* is essential reading for anyone wondering why our world is becoming increasingly controlled and our freedoms more restricted.
