

Evangelicals and Empire: Christian Alternatives to the Political Status Quo

This groundbreaking collection considers empire from a global perspective, exploring the role of evangelicals in political, social, and economic engagement at a time when empire is alternately denounced and embraced. It brings noted thinkers from a range of evangelical perspectives together to engage the most explosive and discussed theorists of empire in the first decade of the twentyfirst century Michael Hardt and Antonio Negri. Using their work as a springboard, the contributors grapple with the concept of empire and how evangelicalism should operate in the world of empire.
